

Online Training Program.

Enhancing the participation of the Outermost Regions in European Union funding with FORWARD Thematic Working Groups subcoordinators' experience

A set of 5 training looks for creating more awareness of the different tools the European Union (EU) provides for promoting the Research and the Innovation ecosystem among the 9 Outermost Regions (Ors). Synergiles, from Guadeloupe Region, and FORWARD project consortium kindly welcome the potential beneficiaries of these trainings: Research and Innovation experts, future project leaders, research organizations, VSEs (very small enterprises) and SMEs (small and medium enterprises).

The trainings will be delivered in French and translated into English.
